

Pick What You Want, Monthly

TSM Collision — Efrain Vasquez

No big bundle required. Start with the AI phone receptionist you already heard, then add only the pieces you want. Everything is **month-to-month** — turn modules on or off anytime — with **support included Monday–Friday, 9–5**. Check the boxes for what you'd like and we'll total it on the spot.

What the industry is saying. FenderBender's *CollisionCast* (June 2026, "Drive More Customers to Your Collision Repair Shop") makes the case plainly: customers now pick a shop by its **online reviews**, its **AI chat**, and its **web presence** — and shops without them lose people before they ever walk in.

The modules below put TSM on the right side of that: **Reviews** → **Review-Request Engine** · **AI chat** → **On-Site AI Website Chat** · **web presence** → **Local SEO + Website**.
