

Automation & Growth Proposal

All Valley Collision — Murrieta, CA

Prepared for All Valley Collision · Prepared by Leo Lebel, Circuit Coders · Date June 26, 2026

Executive Summary

Thanks for the time when I came by — three decades in and the reputation speaks for itself. Here's what I put together specifically for All Valley.

All Valley has something most shops would kill for: since 1997, a 4.9-star rating, and **80% of your business from referrals and repeat customers**. That's three decades of earned trust. People who know you, love you.

But here's the flip side of "80% referral": you have almost **no engine for the new customers who don't already know you** — the after-hours caller, the person Googling "collision repair Murrieta," the web lead that lands in a Gmail inbox and waits. Your reputation is elite; your digital front door is wide open and unwatched. This proposal closes it — and turns your reputation into new-customer growth.

1 What We Found

What's already strong (and stays)

- **Elite trust** — operating since 1997, 4.9★, 129+ reviews, lifetime warranty, free loaner/shuttle. 80% referral/repeat is a number most shops dream about.
- **Fast, clean site** — lightweight and quick, with a strong "#1 Body Shop in Murrieta" headline.

Where the leaks are

- **You're nearly invisible in search.** The website's page title is just "All Valley Collision" — no keywords, no city — there's **no meta description** and **no LocalBusiness schema**. Despite 129 great reviews, Google has little to rank you on for "collision repair Murrieta." A goldmine you're not claiming.

- **No real lead capture.** There's no proper estimate/booking form — web inquiries route to a Gmail inbox and sit there until someone opens them. No instant response, no follow-up. High-intent leads go cold.
- **No live chat** to catch the visitor who won't call.
- **No 24/7 phone capture.** After-hours callers — exactly the people in a fresh accident — hit voicemail.
- **No new-customer engine.** 80% referral is great, but it means your growth is capped by word-of-mouth. Capture search + web + after-hours and you add a whole new stream.

Your reputation already does the hard part — convincing people you're great. We just make sure the people **discovering** you can find you, reach you, and get followed up with.

2 The Options

OPTION 1 — ENTRY

AI Phone Receptionist

An AI voice assistant answers 24/7, bilingual, captures the caller, vehicle, and damage, books an estimate, and texts the lead to you instantly after hours. Never miss the after-hours accident call again. (You heard it live.)

***What it honestly does:** answers every call and captures every lead. It doesn't quote repair prices (those need the car in person) — it books the estimate. Support included Mon–Fri.*

Setup **\$1,500** · Base **\$349/mo** + **\$0.25/min** talk time

OPTION 2 — RECOMMENDED

Full Automation

Everything in Option 1, plus the front-office engine you're missing:

- **Online estimate & booking form** on the site → instant capture, routed to you (no more Gmail black hole).
- **Instant lead response + abandoned-lead follow-up** — every web/phone lead gets answered fast and chased if they go quiet.
- **Review-velocity engine** — turn that 4.9 into 200+ reviews and dominate trust.
- **Repair-status texts** — keep customers informed at every stage (via your CCC ONE).
- **Performance dashboard** — calls, leads, jobs booked, reviews earned.

What it honestly does: we automate the capture and follow-up; we can't guarantee a specific number of jobs — but every lead gets answered and chased, and you see the real numbers. Support included Mon–Fri.

Setup **\$3,500** · Base **\$1,500/mo** + **\$0.25/min** talk time

OPTION 3 — FULL GROWTH PARTNER

Everything + Local SEO & Ads (the new-customer engine)

Everything above, plus we turn search into a steady new-customer stream:

- **SEO fixes** — rewrite the page title, add meta + LocalBusiness schema, build "near me" / city pages so your 129 reviews finally rank you.
- **Google Business Profile optimization** — own the Murrieta map pack.
- **On-site AI chat + website refresh.**
- **Paid ads** — Google & Meta on high-intent local searches.

What it honestly does: we do the work and report real numbers. SEO/ads build over 3–6 months — we control the inputs, not Google's rankings. Goal: make All Valley the most-found, most-reviewed shop in Murrieta.

Setup **\$6,500** · Base **\$2,950/mo** + **\$0.25/min**

Ad spend billed separately at cost. No money-down on ad spend or usage you haven't approved.

How to read the price: these are done-for-you managed services. A full-time receptionist runs \$3,000–4,500/mo; one missed collision job is \$2,000–6,000. Recovering even one extra job a month covers this several times over. Everything's month-to-month — usage metered at \$0.25/min (typically ~\$75–250/mo).

Founding Partner offer. As one of the first valley shops to come on board, All Valley gets your **monthly rate locked for life** as a client, plus the flexibility to **start à la carte** — pick only the modules you want now and scale up anytime. No long contract, cancel any module month-to-month.

3 Agreement & Acceptance

Check the option you'd like to begin with and sign below. Month-to-month — setup due on signing, monthly base begins at go-live, metered usage billed in arrears. Support included Mon–Fri.

Select	Option	Investment
☐	Option 1 — AI Phone Receptionist	\$1,500 setup · \$349/mo + \$0.25/min
☐	Option 2 — Full Automation (Recommended)	\$3,500 setup · \$1,500/mo + \$0.25/min
☐	Option 3 — Full Growth Partner	\$6,500 setup · \$2,950/mo + \$0.25/min
