

Automation & Growth Proposal

Ikon Auto Collision — Murrieta, CA

Prepared for Ikon Auto Collision · Prepared by Leo Lebel, Circuit Coders · Date June 26, 2026

Executive Summary

Thanks for taking a few minutes when I stopped by — it was obvious right away you run a serious, high-caliber operation. Here's what I put together specifically for Ikon.

Ikon isn't a shop with a reputation problem — you're one of the best in the valley. OEM-certified for Lamborghini, Ferrari, and McLaren, I-CAR Gold Class, 4.9 stars and 300+ five-star reviews. Your work speaks for itself.

The opportunity is different for a shop at your level: when your clientele drives exotics and high-end vehicles, **a single missed lead is a five-figure job**. Right now there are three quiet leaks — after-hours calls, photo-upload leads that never get followed up, and local-search visibility you've earned but aren't fully claiming. This proposal plugs them.

1 What We Found

What's already strong (and stays)

- **Elite reputation** — 4.9★, 300+ five-star reviews, OEM exotic certifications, I-CAR Gold Class (top 10% of shops).
- **A real digital presence** — clean site with a keyword-rich headline, a live chat widget already installed, and a photo/video upload estimate portal. You're ahead of most shops.

Where the high-value leaks are

- **No 24/7 phone capture**. An exotic owner who just damaged a \$200K car and calls after hours hits voicemail — and calls the next certified shop. At your ticket sizes, one missed call is enormous.

- **Your photo-upload portal has no automation behind it.** Uploads sit in an inbox until someone opens them, and the people who upload but don't book get *no follow-up*. That's warm, high-intent leads going cold.
- **No LocalBusiness structured data.** Despite 300+ reviews, the site is missing the schema markup Google reads for the map pack — you're leaving "exotic / aluminum repair Murrieta" ranking on the table.
- **Heavy page (~1.5 MB)** — slow on mobile, where most of these searches happen.

You don't need a rebuild or a reputation fix. You need an **automation layer** that makes sure no high-value lead — call, upload, or search — ever slips through.

2 The Options

OPTION 1 — ENTRY

AI Phone Receptionist

A premium AI voice assistant answers 24/7, bilingual, captures the caller, vehicle, and damage, books an estimate, and texts the lead to you instantly after hours. Never lose a high-value call again. (You heard it live.)

***What it honestly does:** answers every call and captures every lead. It doesn't quote repair prices (those need the car in person) — it books the estimate. Support included Mon–Fri.*

Setup **\$1,500** · Base **\$349/mo** + **\$0.25/min** talk time

OPTION 2 — RECOMMENDED

Full Automation

Everything in Option 1, plus the layer that supercharges what you already have:

- **Photo-upload lead automation** — instant auto-response to every portal upload, and automatic follow-up on the ones who don't book.
- **Abandoned-lead follow-up** — re-engage anyone who got a quote and went quiet.
- **Review-velocity engine** — keep the 5★ momentum compounding (recent reviews keep you ranking).
- **Repair-status texts** — keep exotic owners informed at every stage (via your CCC ONE).
- **Performance dashboard** — calls, uploads, leads, jobs booked, reviews.

What it honestly does: we automate the capture and follow-up; we can't guarantee a specific number of jobs — but every lead gets answered and chased, and you see the real numbers. Support included Mon–Fri.

Setup **\$3,500** · Base **\$1,500/mo** + **\$0.25/min** talk time

OPTION 3 — FULL GROWTH PARTNER

Everything + Local SEO, Schema & Ads

Everything above, plus we claim the visibility your reputation has earned:

- **LocalBusiness schema + site speed** — fix the map-pack signal gap, compress the page.
- **Local SEO + GBP optimization** — rank for "exotic / aluminum / collision repair Murrieta."
- **Paid ads** — Google & Meta on high-intent, high-value searches.
- Monthly strategy + reporting on the full funnel.

What it honestly does: we do the work and report real numbers. SEO/ads build over 3–6 months — we control the inputs, not Google's rankings. Goal: own exotic + premium collision search in the valley.

Setup **\$6,500** · Base **\$2,950/mo** + **\$0.25/min**

Ad spend billed separately at cost. No money-down on ad spend or usage you haven't approved.

How to read the price: these are done-for-you managed services. A full-time receptionist runs \$3,000–4,500/mo; one missed exotic job is \$5,000–20,000+. Recovering even one job covers this many times over. Everything's month-to-month — usage metered at \$0.25/min (typically ~\$75–250/mo).

Founding Partner offer. As one of the first valley shops to come on board, Ikon gets your **monthly rate locked for life** as a client, plus the flexibility to **start à la carte** — pick only the modules you want now and scale up anytime. No long contract, cancel any module month-to-month.

3 Agreement & Acceptance

Check the option you'd like to begin with and sign below. Month-to-month — setup due on signing, monthly base begins at go-live, metered usage billed in arrears. Support included Mon–Fri.

Select	Option	Investment
☐	Option 1 — AI Phone Receptionist	\$1,500 setup · \$349/mo + \$0.25/min
☐	Option 2 — Full Automation (Recommended)	\$3,500 setup · \$1,500/mo + \$0.25/min
☐	Option 3 — Full Growth Partner	\$6,500 setup · \$2,950/mo + \$0.25/min
