

# TSM / Efrain — Negotiation Cheat Sheet

Meeting June 24, 2026

## 🔥 NEW SIGNAL (6/23)

Efrain sent a FenderBender *CollisionCast* episode ("Drive More Customers to Your Collision Repair Shop" — AI chat, reviews, web presence). He's **pre-selling himself on the ADD-ONS**, not just the phone. Don't defend \$349 — expect a multi-module build. Raise the target.

- Validate him: "You sent me that episode — you're exactly right, these modules are what they're describing."
- Map it live: Reviews → Review Engine · AI chat → On-Site Chat · web presence → SEO + Website. (Printed on the menu.)
- New sweet spot: **Phone + Reviews + AI Chat + Status ≈ \$1,040/mo** (4 modules, 10% off).

## SITUATION

He LOVES the automation (heard it live). Not a value objection — just the number. Don't discount tiers; hand him the menu, let him build his own number. Control feels like a discount.

## FLOORS — DON'T GO BELOW

|                                            |                   |
|--------------------------------------------|-------------------|
| Absolute monthly floor (phone alone)       | <b>\$349/mo</b>   |
| Per-minute usage (pass-through, never cut) | <b>\$0.25/min</b> |
| Setup fees                                 | <b>FLEX LEVER</b> |

Setup is your flex lever — split, defer, or waive to close. **Never erode the recurring monthly.**

## RUN IT

- Anchor on the phone he loves: "\$349/mo core, everything else optional."
- Hand him the menu, he checks boxes, total it live — he drives.
- Nudge to 3+ modules (10% off + dashboard free). Target ~\$1,040.
- Still tight: drop to Phone + Reviews (\$648) or just Phone (\$349). Land him in, upsell later.

---

## LEVERS TO GIVE (CHEAPEST-TO-YOU FIRST)

- Waive/split setup ("waive setup if we start today") — no recurring cost.
- Free Dashboard (already free at 3+ — make it a gift).
- First month usage-only on phone (skip first \$349) — strong closer.
- Lock his rate for life as a client — cheap, drives commit-now.

---

## HOLD THE LINE

- Don't cut \$0.25/min.
- Don't promise LIVE repair-status lookup (CCC integration still in setup; status texts run off CCC/ front-desk).
- Don't cheap-bundle Growth modules (SEO/ads/website) — real ongoing labor.

---

## THE CLOSE

*"Pick what makes sense today — add or drop any month to month. Start with Phone + Reviews + AI Chat at about \$1,000, and I'll waive setup if we kick off this week?"*

Get a YES on the phone module minimum. Land, then grow.
