Toyota Service in Vero Beach — Upfront Pricing, Factory Techs

At **Toyota of Vero Beach**, you should know what a service costs before you say yes — not at checkout. The menu below shows sample, representative starting prices for the work most Vero Beach drivers schedule, so you can plan and compare. Your exact, final price is confirmed in your written quote — just ask your advisor for it.

Our service center is staffed by factory-trained Toyota technicians using genuine Toyota parts, located at **1075 S US Hwy 1, Vero Beach, FL 32962**. Call **772-569-8000** or **book online in about 60 seconds**.

Sample Service Price Menu

Below are **sample, representative starting ("from") prices** for common Toyota maintenance. Final pricing depends on your model, trim, oil capacity, and any factory-recommended items found during inspection. Ask your advisor for your exact written quote — that quote is what confirms your price.

Service	Starting Price
Conventional oil change	from {{PRICE_OIL_CONVENTIONAL}}
Synthetic oil change	from {{PRICE_OIL_SYNTHETIC}}
Tire rotation	from {{PRICE_TIRE_ROTATION}}
Wheel alignment	from {{PRICE_ALIGNMENT}}

Service	Starting Price
Brake pads & rotors (per axle)	from {{PRICE_BRAKES}}
Battery replacement	from {{PRICE_BATTERY}}
Cabin air filter	from {{PRICE_CABIN_FILTER}}

Prices shown are sample starting points for most Toyota models and are subject to your vehicle's specifications, current tax, and shop supplies. Final price is confirmed in your written quote — ask your advisor for it every time.

How our quotes work: Ask your advisor for your out-the-door total in writing before any work begins. If our inspection turns up something not on your original ticket — a worn belt, a leaking gasket — just ask us to show you and get your approval, with a price attached, before any added work. You decide what gets done.

Why Factory Service Beats the Independent Shop

A quick-lube or corner garage can change your oil. But your Toyota was engineered to specific tolerances, and a few things separate factory service from a general independent:

- **Hybrid and plug-in expertise.** If you drive a Prius, RAV4 Hybrid, Camry Hybrid, or any Toyota hybrid, our Toyota-trained technicians are experienced with the high-voltage battery and hybrid drive systems. Hybrid battery diagnosis, conditioning, and replacement are specialized work — not every independent shop is equipped to handle them safely. We are.
- **ToyotaCare.** New Toyotas may include **ToyotaCare**, a no-cost maintenance plan covering factory-scheduled service for the first 2 years or 25,000 miles, plus roadside assistance. Ask us to confirm your coverage — bring it in and we'll check your eligibility. Coverage terms are set by Toyota; ask us or check your owner's documentation for the specifics that apply to your vehicle.
- **Genuine Toyota parts.** We install genuine Toyota parts engineered for your exact vehicle and backed by Toyota's parts warranty. The right part fits right and lasts — and it protects your vehicle's warranty coverage. Browse [genuine parts and accessories](#).

- **Your service history, in one place.** Work done here is recorded against your VIN, which keeps your maintenance record clean and complete — useful for warranty claims and resale.

Factory-trained doesn't have to mean a premium price you can't see coming. That's the whole point of the menu above.

While-You-Wait Amenities + Shuttle

Most routine maintenance can be done while you wait. Our service lounge gives you a comfortable place to work or relax with complimentary Wi-Fi, coffee, and seating, so a quick oil change or tire rotation doesn't cost you your whole morning.

Need to drop the car and go? Ask about our shuttle service and current coverage area when you schedule, and we'll arrange the best option for getting you where you need to be. You can also ask about early or before-hours drop-off if that fits your schedule better.

For larger jobs, ask about loaner availability and alternate-transportation options when you schedule. We'll be straight with you about timing up front.

Service Specials

We rotate service specials and coupons on oil changes, brakes, tires, and seasonal maintenance throughout the year. Pair a current offer with a written quote from your advisor to know exactly what you'll pay before you commit.

View this month's service specials and coupons →

Specials are subject to the terms printed on each offer; present at time of write-up. Ask your advisor to apply any eligible offer to your written quote so the discount is reflected before work begins.

How to Book: Appointment or Walk-In

Appointments get you the shortest wait and a reserved time slot — book in about 60 seconds [online](#) or call **772-569-8000**.

Walk-ins are welcome for quick services like oil changes and tire rotations, subject to bay availability. If the shop is busy, we'll give you an honest wait estimate before you commit your time — so you can decide whether to wait, use the shuttle, or come back at a slot that suits you.

Either way, ask your advisor for your price in writing before any work begins.

Frequently Asked Questions

How much is an oil change at Toyota of Vero Beach? Our conventional oil change starts from {{PRICE_OIL_CONVENTIONAL}} and our synthetic oil change starts from {{PRICE_OIL_SYNTHETIC}} as sample starting prices. Your exact price depends on your model's oil type and capacity. Ask your advisor for your written total before any work begins. See the full [price menu](#) above.

Do you service non-Toyota vehicles? Yes. While we specialize in Toyota and are equipped with genuine Toyota parts and factory-trained technicians, our service center can handle routine maintenance — oil changes, brakes, tires, batteries, alignments — on many other makes. Call [772-569-8000](tel:772-569-8000) to confirm we can cover your specific vehicle and service.

How long will my service take? Routine maintenance like an oil change or tire rotation is often completed while you wait. Larger jobs such as brakes or alignments take longer. When you book or check in, we'll give you a realistic time estimate up front — and the shuttle is available if you'd rather drop the car off.

Do I need an appointment, or can I walk in? Both work. Appointments guarantee a reserved time and the shortest wait — [book online](#) in about a minute. Walk-ins are welcome for quick services, subject to availability, and we'll quote your wait honestly before you commit.

Can you service my Toyota hybrid battery? Yes. Our Toyota-trained technicians are experienced with Toyota hybrid systems, including high-voltage battery diagnosis, conditioning, and replacement. Hybrid work is specialized and we're equipped for it. Call [772-569-8000](tel:772-569-8000) to discuss your hybrid's symptoms, and ask us to outline next steps and pricing in writing before any work starts.
